# Our history

Let's go back to 18 years ago...

# Arquetipos de integración

2005

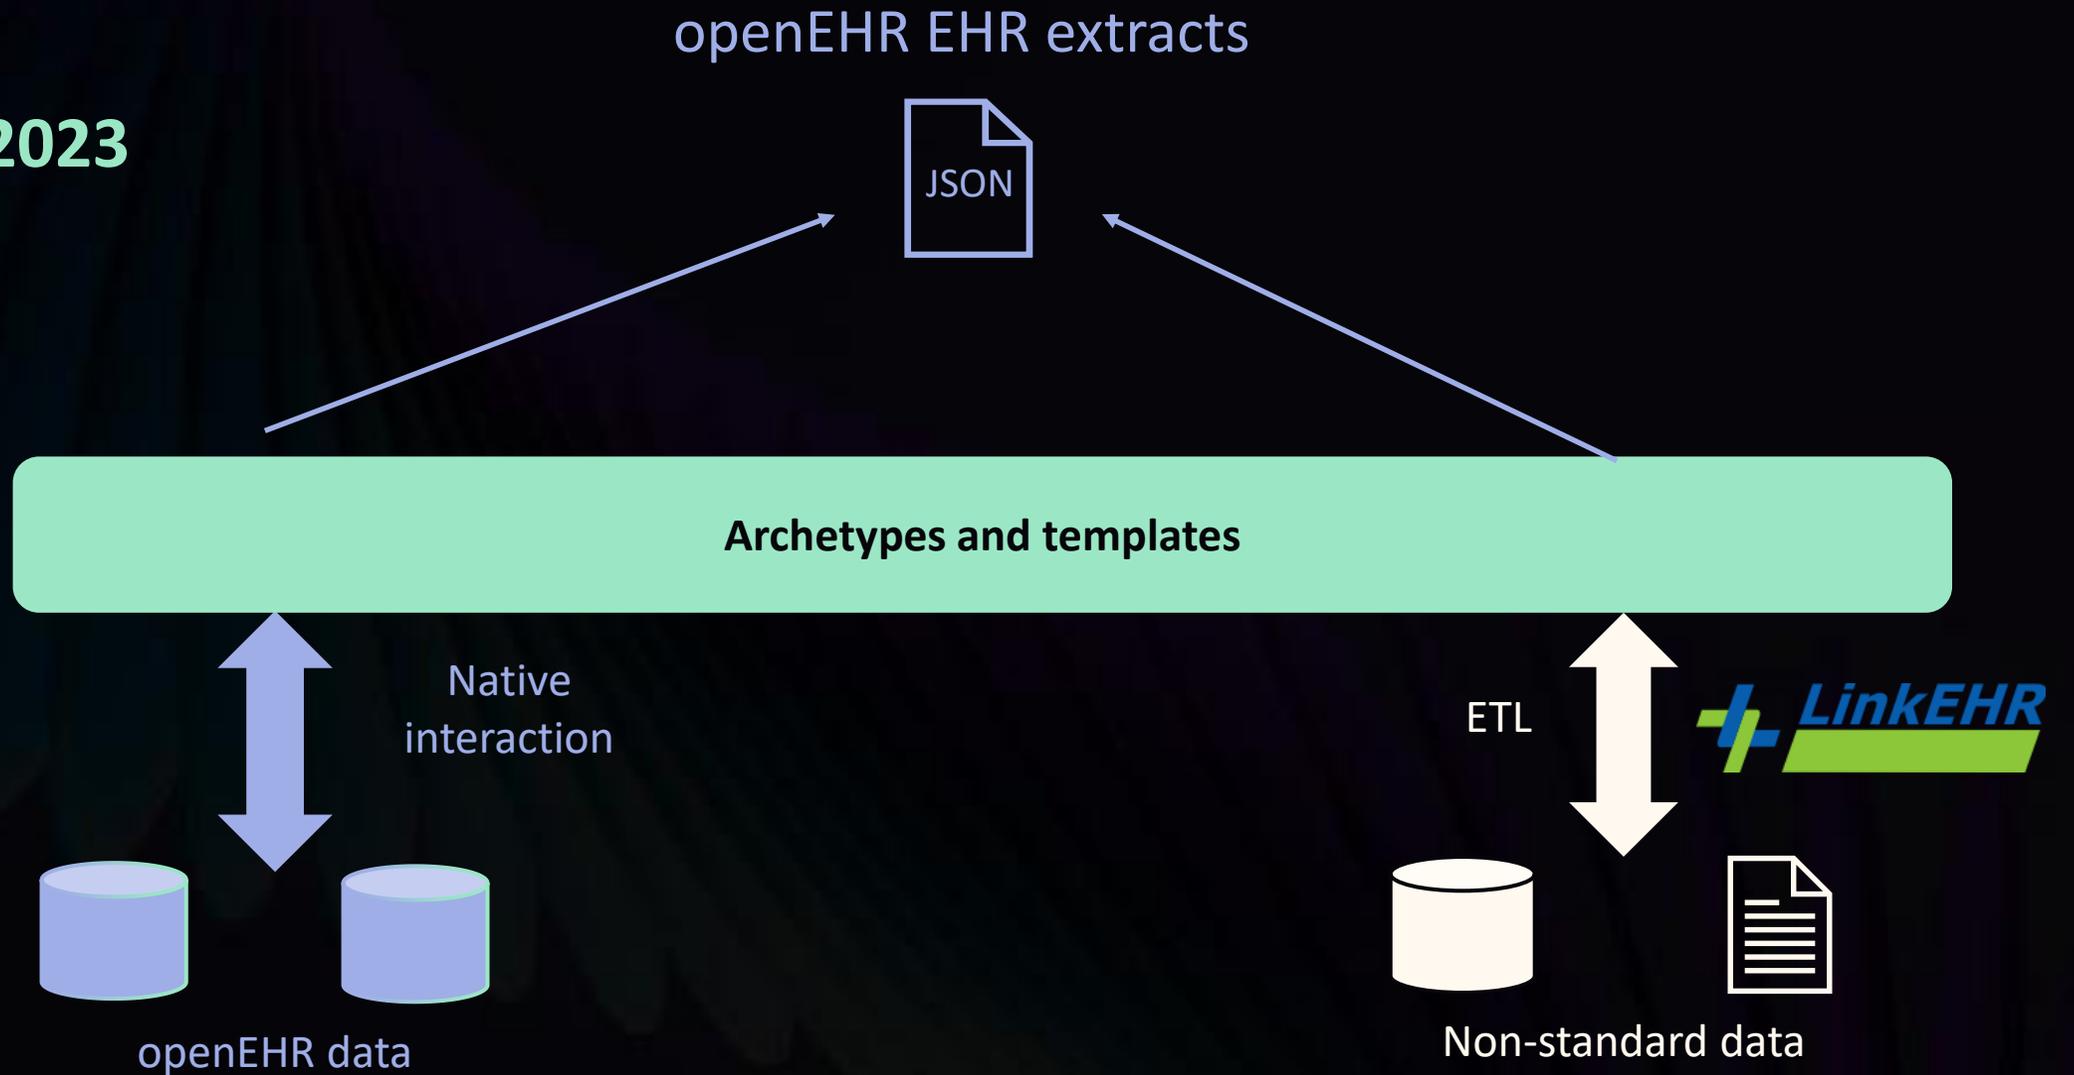

**Situación prevista**

Look back to leap forward

**Situación real**

2023

# Where are we now?

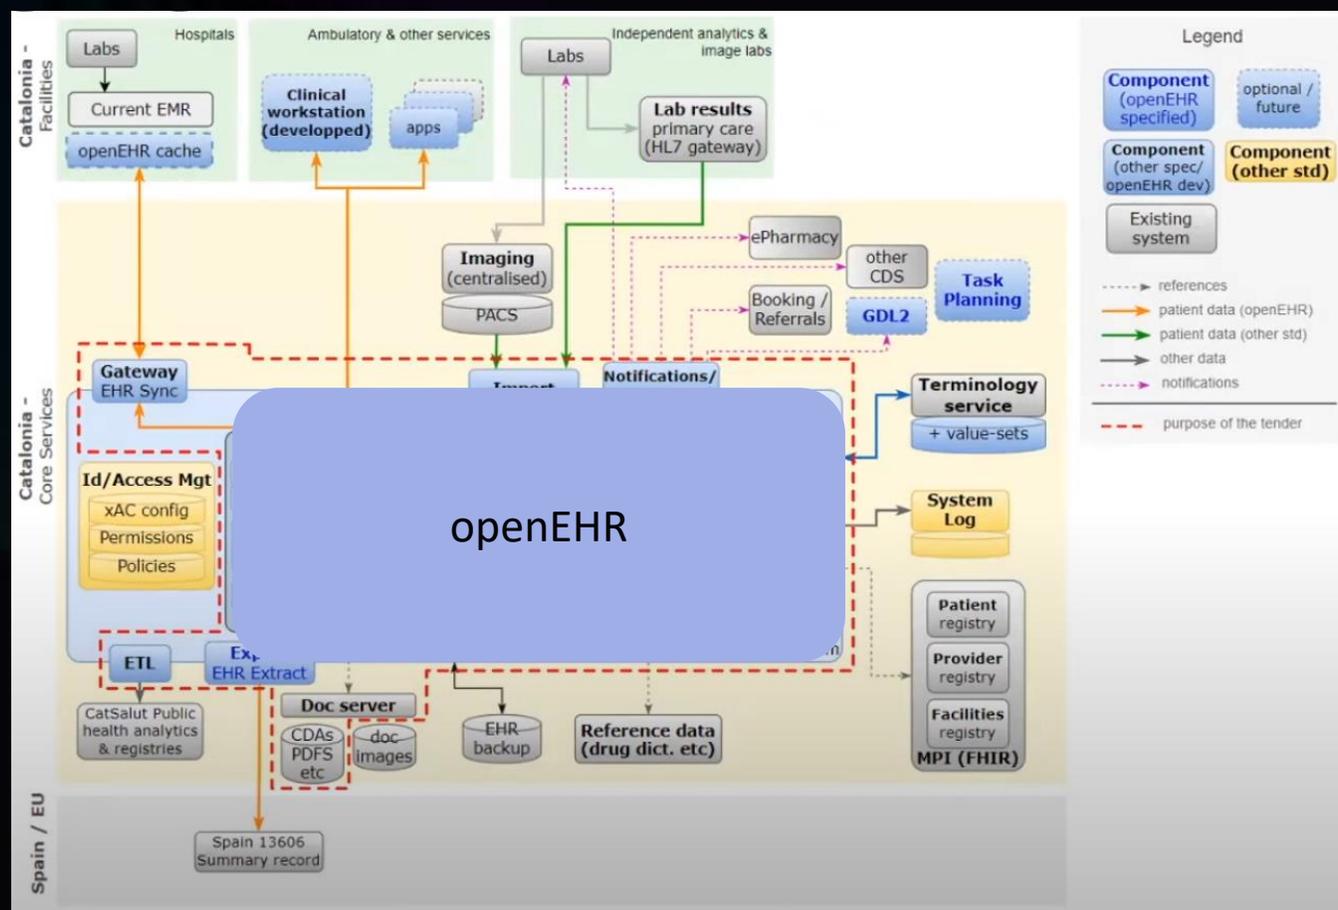

Information  
models cannot be  
set on stone  
(no longer under discussion)

# Growing native openEHR systems

Catalan Digital Health Platform

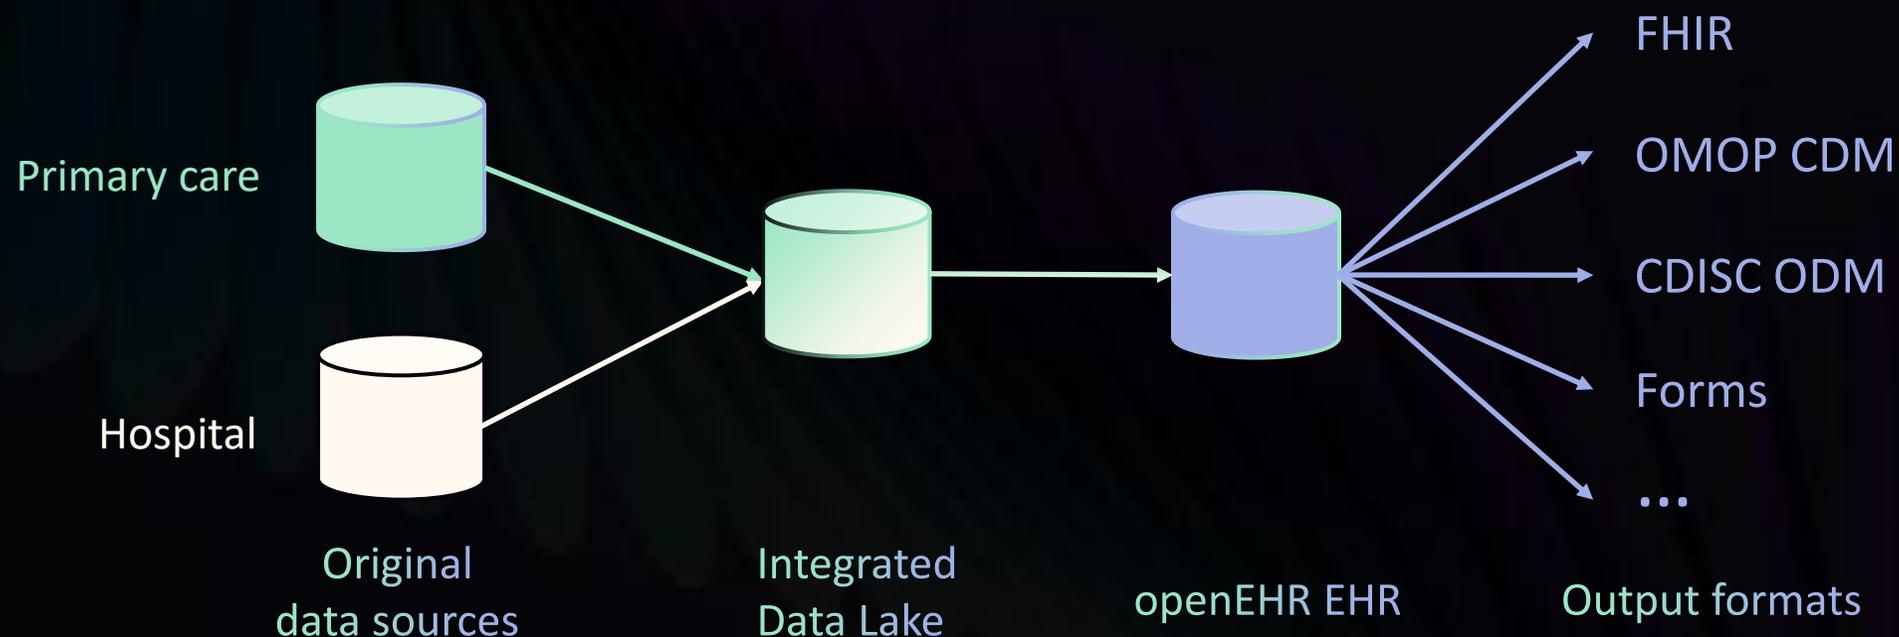

Salut/ Servei Català de la Salut

Generalitat de Catalunya

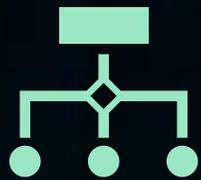

# EHR standards working together

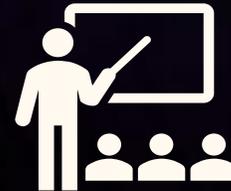

INFOBANCO

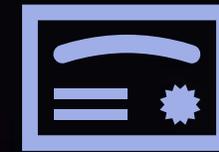

# Professional training and certification

openEHR roles and  
competencies

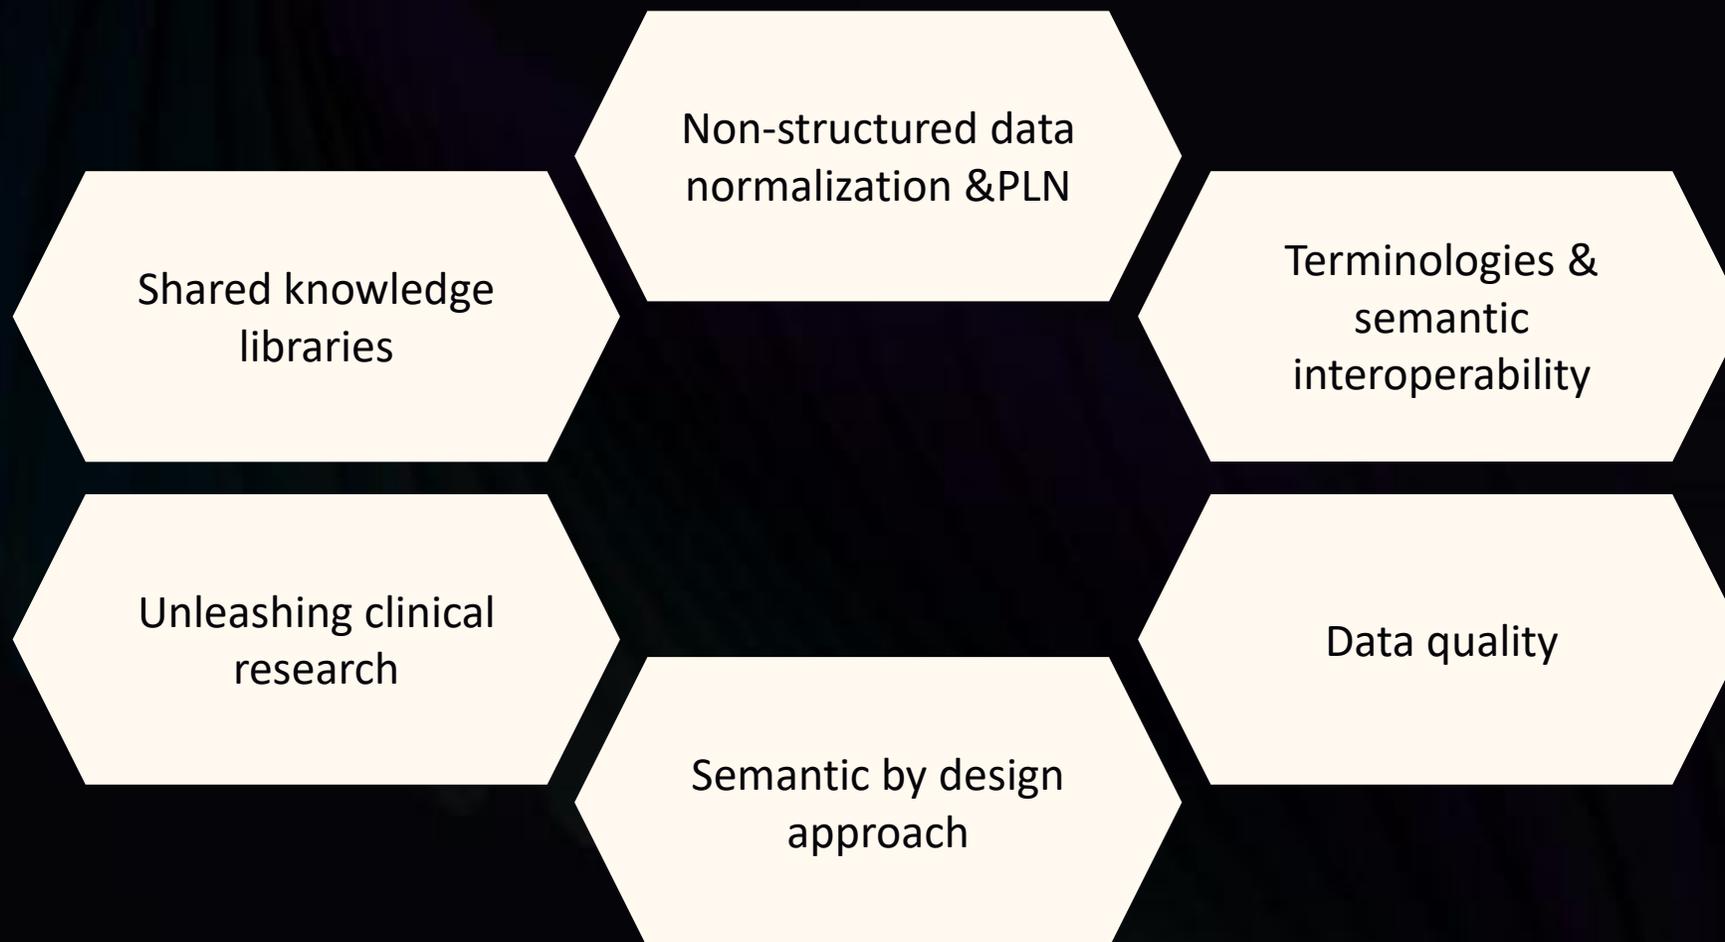

An openEHR education  
program for Spain

openEHR professional  
certification

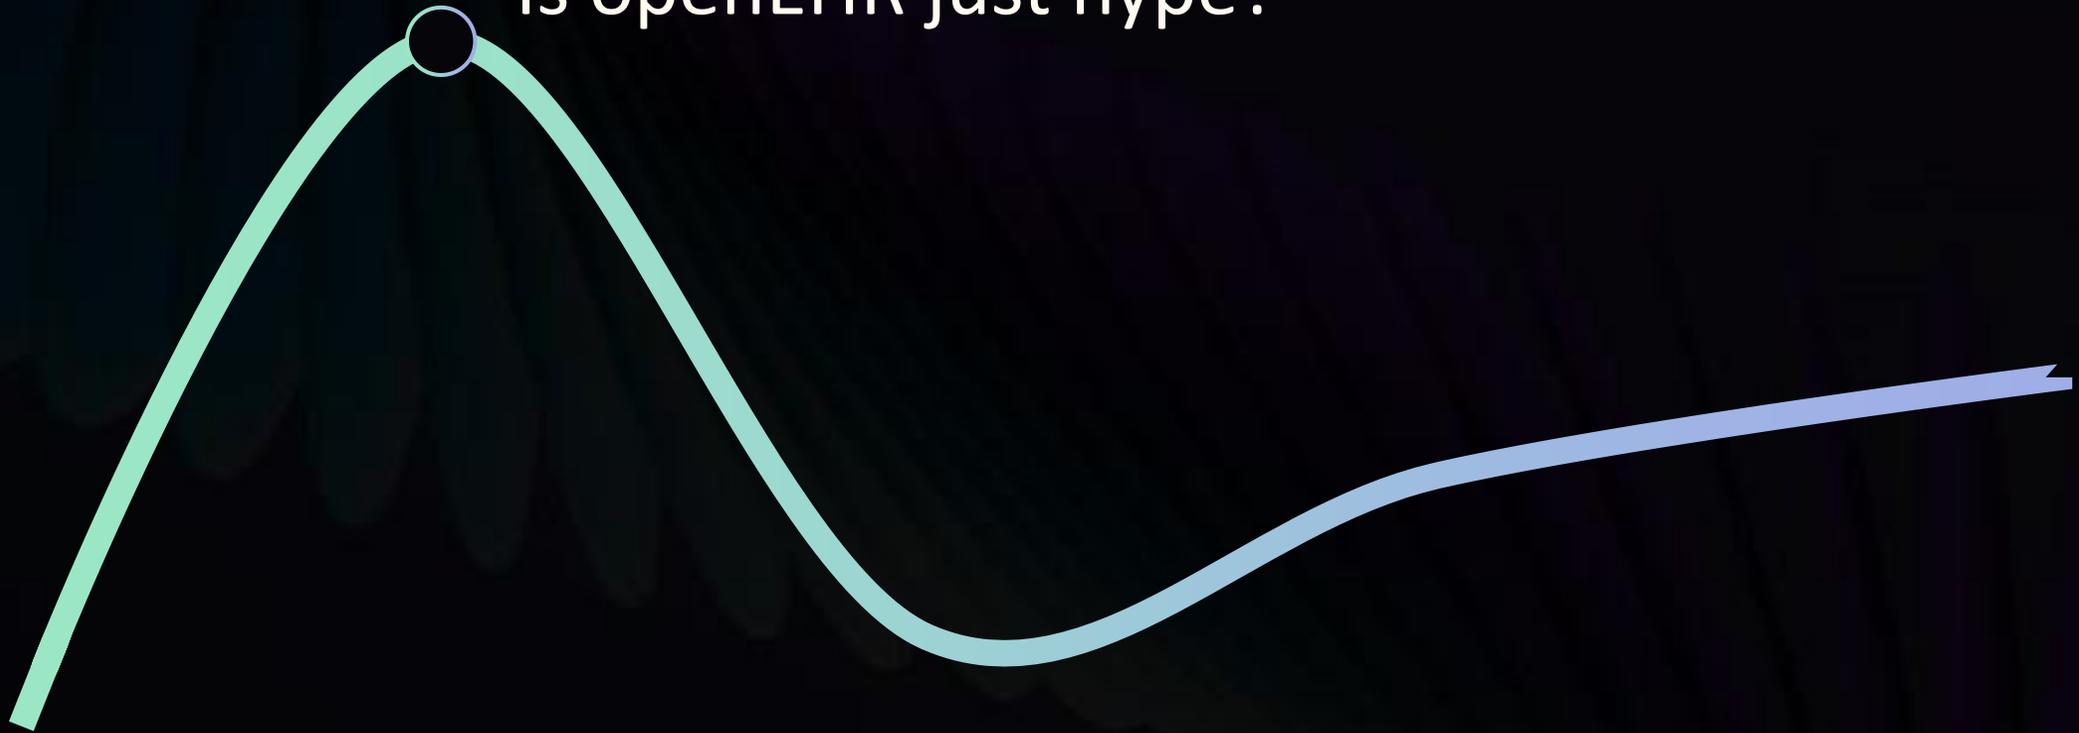

# A glimpse into the future

# Challenges

# A final question...

Is openEHR just hype?

This is not just about adopting a new technology

We are formalizing the structure and meaning of lifelong  
health information

It is not a speed race, it never was

But we have **no time to waste**

# Thank you
